

Financial Reporting

Our Financial Reporting group's property-specific insight and comprehensive knowledge of reporting standards empower us to deliver strategic guidance to multinational corporations, financial institutions, public and private REITs, private equity groups and funds.

Led by a team of regional experts, Newmark's Financial Reporting practice takes a holistic, consultative approach to meeting the needs of its clients. The team's focus extends beyond real estate to include other tangible assets, including machinery, technical equipment and personal property. In addition, the team analyzes intangible assets, including noncompete clauses, patents, contracts and customer loyalty programs.
